

# OSHA Training

Success with Limited Resources!

## Welcome!

Presenters:

Robert K. Beck III, Purdue University

Jed Dertinger, Ohio State University

Jay Schwartz, Purdue University

Monday, November 1, 2004

# Program Goals

Provide attendees

- Resources for Schools
- Web-Based Resources
- Community Resources
- Personal Contacts
- Handouts

# What Training is Required for Employees?

- 29CFR, 1910 subparts
- Energizing Action Plan
- Fire Prevention Plan
- Permit – required confined spaces
- Lock out/Tag out
- Portable Fire Extinguishers
- Hazardous Communication
- PPE and.....on and on

# How can your school train without a trainer?

- Who you gonna call..... 

Ghostbusters?

## BWC Division of Safety & Hygiene - Meeting your training needs

[Safety and Hygiene's training center](#), a continuing education facility specializing in occupational safety and health, provides you with the knowledge, tools and skills you need to prevent occupational injuries and illness. Courses are offered on an open enrollment basis, and tuition is free to employers actively enrolled in Ohio's workers' compensation system.

Designed by the training center, [one-hour safety presentations](#) help you make safety presentations to co-workers. These presentation materials are available in two formats and include the training center course manuals on which they are based.

[The video library](#), a lending library of occupational safety and health videotapes, has a collection of more than 500 titles. The only fee for the video library is returning the tape to Safety & Hygiene by insured mail.

A variety of [publications](#) can help support your training program. For example, [the Safety Leader's Discussion Guide](#) offers a monthly safety topic that can be featured in your organization's safety meetings.

## Division of Safety & Hygiene Training Center - One-hour safety presentations

Our main goal at the Division of Safety & Hygiene (DSH) is to prevent accidents and illnesses in the workplace. The one-hour safety presentations listed below will help you do that at your company. We designed them so you could make presentations to coworkers to help them understand and promote safer and healthier work environments. We recommend that you take the related DSH Training Center courses before using these presentations.

[Click here for class dates and locations](#), or call 1-800-OHIOBWC, and press 2.

Presentation materials are available for the topics listed below.

Course topic	Read-only version	PowerPoint version	Manual*
Accident Analysis	<a href="#">View/print</a>	<a href="#">View/print</a>	<a href="#">View/print</a>
Bloodborne Pathogens	<a href="#">View/print</a>	<a href="#">View/print</a>	<a href="#">View/print</a>

## About BuSET

Translate ?

The Bureau of Safety Education and Training (BuSET), a division of the Indiana Department of Labor, works with Indiana's employers, employees, labor unions, professional groups, trade organizations, and others to ensure workplace health and safety.

Free BuSET services include group training and seminars, on-site consultations, educational publications and training materials, along with pro-active voluntary health and safety programs designed to bring employers and employees together to create and maintain healthy working environments.

BuSET works hand-in-hand for Indiana workers' safety.

**We're here to help.**  
The federal Occupational Safety and Health Act of 1970 encouraged states to develop and implement their own safety and health programs. BuSET is Indiana's consultation program, and we provide free consultation services to assist employers in achieving voluntary safety and health compliance.

**We're your partners in health and safety compliance.**  
BuSET does not impose fines. Instead, we offer programs and services that educate and assist employers in safety compliance.

BuSET's outreach includes \*FREE\* on-site consultations, training seminars, publications, sample programs, technical assistance, and exemplary program recognition. This outreach allows both employers and employees to recognize and eliminate workplace hazards and prevent injuries, illnesses, and fatalities.

**We look forward to working with you.**  
BuSET's staff are professionals dedicated to working with employers and employees to identify and resolve workplace health and safety issues. Free service is provided regardless of the employer's size or type of industry.

BuSET conducts numerous safety courses and seminars statewide. Consultants assist employers in achieving voluntary compliance with OSHA safety standards by performing consultation visits, and partnering with

- ★ [Course List](#) ★ [Course Policy](#) ★ [Non-BuSET Courses](#) ★ [Material Suppliers](#) ★ [Equipment Suppliers](#)

BuSET offers several training seminars statewide, with topics ranging from machine guarding to accident management. The seminars, conducted in Indiana cities, are designed to educate safety professionals on the importance of maintaining safe work environments and the necessary steps to achieve IOSHA compliance.

### ACCIDENT INVESTIGATION

**CLASS TIME:** 3 to 3 ½ hours

**COURSE OBJECTIVE:** Attendees will learn to recognize some of the "root" cause(s) of accidents and near-miss accidents. The program will also focus on the prevention of accidents and near-miss accidents, by recognizing the hazards of certain jobs.

# Online Compliance Training

- Subscription fee based

<http://safety1.blr.com/>

The screenshot shows the homepage of Safety.BLR.com. At the top, there is a navigation bar with links for Safety Home, BLR Home, Enviro.BLR.com, HR.BLR.com, Comp.BLR.com, and Free Newsletters. There are also buttons for Login and Become a Subscriber. The main header features the BLR logo (Business & Legal Reports) and the site name Safety.BLR.com with the tagline 'Making Safety Training and Compliance Easier'. A search bar is present with a 'GO' button. Below the header is a 'Site Navigator' section with three dropdown menus for 'Select a Topic', 'Select a Resource', and 'Select a Jurisdiction', followed by a 'GO' button. The main content area is divided into several sections: 'A-Z Topic List' with a 'Training Resources' sub-section listing items like PowerPoints, Training Checklists, Meetings, Handouts, Quizzes, Certificates, Tool-Box Talks, Activities, Trainer's Outlines, and Clip Art; 'Compliance Resources' listing Regulatory Analysis, Regulations, Interpretations, Directives, Regulatory Activity, Compliance Checklists, Written Plans, Policies, Forms, and Guidance Documents; 'State Compliance' with a 'Select Jurisdiction' dropdown; and 'Best Practices'. A central 'Welcome to Safety.BLR.com' banner features an image of two workers in hard hats and a text box stating 'BLR makes safety training and compliance easier with this award-winning site. Find all the prewritten tools and practical answers you'll ever need.' Below this text are buttons for 'Take the Tour' and 'Register for a Free Trial', and a 'Gold Award' logo. A 'What's New on the Site?' section includes a link to 'Visit the New BLR Home Page' and a 'Celebrate the New BLR.com' announcement. A 'Free Ezines' section offers 'Practical ... Plain-English' ezines, including 'Safety Ezine - OSHA news & best practices', 'Environmental Ezine - Expert advice on EPA & state regs', 'OSHA Challenge - What's your OSHA IQ? Weekly quiz', and 'Safety Training Tips - Weekly training idea'. There is an email subscription form with a 'Subscribe' button and a 'LIVE HELP' chat window with a 'CLICK HERE' button. The footer includes a link to ask an Editorial question.

## Workplace

[Search NIOSH](#) | [NIOSH Home](#) | [NIOSH Topics](#) | [Site Index](#) | [Databases and Information Resources](#) | [NIOSH Products](#) | [Contact Us](#)

## NIOSH Safety and Health Topic: **Bloodborne Infectious Diseases** **HIV/AIDS, Hepatitis B Virus, and Hepatitis C Virus**

Exposures to blood and other body fluids occur across a wide variety of occupations. Health care workers, emergency response and public safety personnel, and other workers can be exposed to blood through needlestick and other sharps injuries, mucous membrane, and skin exposures. The pathogens of primary concern are the human immunodeficiency virus (HIV), hepatitis B virus (HBV), and hepatitis C virus (HCV). Workers and employers are urged to take advantage of available engineering controls and work practices to prevent exposure to blood and other body fluids.

If you experienced a needlestick injury or are managing occupational exposures, click [here](#)
